THE KEY TO YOUR BUSINESS

CUSTOMER SUPPORT

No matter where you take your Isuzu Giga Series in NZ we've got you covered with 20+ Service Outlets and a massive range of parts off the shelf.

AXLES

Choose Isuzu Giga Series for robust and durable axles.

EMISSIONS

Isuzu Giga Series offer Euro V low emission engines. We love NZ clean and green so let's leave it that way for the next generation.

As New Zealand's favourite truck our customers expect Isuzu to offer industry leading products that meet the demanding requirements of the NZ owner. The Isuzu Giga Series are designed by New Zealanders for New Zealanders and delivers to your business the most durable, comfortable and economical vehicle possible. If you value quality, an excellent return on investment, low running costs, high resale and a driving experience that won't leave you exhausted at the end of the day then the Isuzu Giga Series is the truck for you.

CAB/COMFORT

Isuzu Giga Series offer a great place to work and won't leave you rubbing your back at the end of the day.

SAFETY

Isuzu Giga Series feature some of the most technologically advanced active and passive safety systems.

ENGINE

Isuzu Giga Series utilise the exceptionally durable 6WG1 engine offering great output (400-530hp) and high torque to get you on the move.

TRANSMISSION

Isuzu Giga Series offers two options including full Manual and AMT (Automated Manual).

TRUCKLOADS OF FEATURES

COMFORT

Isuzu Giga Series are renowned for taking the basic requirements of a durable workhorse and making it more than just the sum of its parts. Here are some of the standard and optional features you can expect to enjoy in an Isuzu Giga Series:

- ISRI 6860 air suspension driver's seat with auto weight adjustment and integral pretensioner seat belt.
- Giga Series trucks come standard with Isuzu 6.2 inch touch screen Media Centre with 4-speakers.
- Ultimate cab infotainment system at your fingertips. Navigate through the simple menu to play your favorite songs, digital station, or even internet radio.
- Hands-free Bluetooth is standard with steering wheel mounted audio controls.
- Optional tyre-pressure monitoring.
- The connected truck with optional Telematics Fleet Management System (I-Path) continuously shares and records data in real time to increase safety, productivity and reduce downtime.
- Reverse cameras that support up to five camera inputs. One standard digital camera with infra red and rear microphone input active when reversing, up to four optional analogue cameras.
- Optional: Rear park sensors, tyre pressure monitoring system, GPS sat nav.
- Integrated auto air conditioning and electric windows.
- Lined cab interior with padded roof lining and vinyl floor covering to reduce in cab noise for a comfortable days work.
- Centre console box with storage tray, door mounted storage pockets as well as left hand glove box.
- Two overhead lockers and CB compatible compartment with wireless inductive phone charger pocket for Qi enabled phones.
- Steel suspension as well as option of air suspension on many models.
- Air suspension is lightweight and durable Isuzu four bag per axle with remote hand control to raise and lower suspension for loading and coupling. Auto return to factory height over 20km/ph.
- Interior document light.
- Height and reach adjustable steering column with soft feel steering wheel.
- Giga Series cabs are exceptionally quiet from the inside with internal noise level of only 70db(A) @80km/ph.

At the end of the day the Isuzu Giga Series is a durable, cost effective and robust workhorse. Isuzu Giga Series trucks are designed to offer you the comforts of a car and an exceptional driving experience that won't leave you rubbing your lower back when you step out of the cab after a long day on the road.

SAFETY

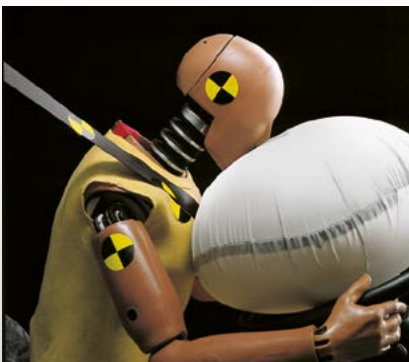

When it comes to protecting the most valuable load of all including you, your people and those who share the road, you'll find that Isuzu Giga Series trucks lead the way with both active and passive safety systems. Here are some of the safety features you will receive with your Isuzu Giga Series:

- Isuzu Giga cabs are all steel, monocoque construction with welded strengthening ribs and side door impact beams.
- Driver SRS Airbag.
- Three point seatbelts in all outboard seating, drivers fitted with pretensioner.
- Brakes are dual circuit/full air/taper roller and auto adjusting with ABS to meet NZ Brake Regulations.
- Auxiliary retardation on all models delivered by Isuzu X Tard (air controlled butterfly type exhaust) and on selected models a secondary Isuzu Giga Tard is available (heavy duty permanent magnet driveshaft retarder).
- Side intrusion bars to reduce passenger injury in a side impact accident.
- Optional speed limiting setting.
- Door mounted heated rearview mirrors.
- Bluetooth hands free and optional reverse cameras that support up to five camera inputs. One standard digital camera with infra red and rear microphone input active when reversing, up to four optional analogue cameras. Rear park sensors and tyre pressure monitoring system to increase the safety of operating the vehicle.

EASE OF OPERATION

When designing the current Isuzu Giga Series range, Isuzu considered the needs and wants of the owner and driver to make a heavy truck that was as pleasant to operate as a car including standard/optional features:

- 14 models to choose from featuring 18 speed fuller manual or 16 speed AMT automated shift transmissions, steel or air suspension, 400, 460 or 530HP and high roof cabs on 530HP trucks, depending model.
- AMT includes optional clutch pedal operation for low speed yard manoeuvring, hitching and docking.
- Cruise control.
- Multi display system which includes information relating to fuel consumption, trip meter, instant and total fuel consumption, battery voltage, engine overheat, coolant level oil pressure and more.
- Large door mounted heated and electric mirrors for excellent vision.
- Keyless entry with engine immobilizer.
- Height/reach adjustable steering column with soft feel steering wheel.
- 460 and 530HP AMT feature smart glide (eco-roll) technologies to reduce fuel use and Turn Position hold system, optimising correct gear selection.

GOING THE DISTANCE FOR YOU

PERFORMANCE AND VERSATILITY

- Engines – Isuzu Giga Series trucks are all offered with the remarkably durable 15.6L Isuzu 6WG1 engines which deliver between 400 - 530hp.
- By using combinations of Diesel Oxidation Catalyst (DOC) and Selective Catalytic Reduction (SCR) Isuzu Giga Series trucks are a minimum Euro V emission standard.
- Isuzu Giga Series front axles are Isuzu's durable FO series reverse Elliot I Beams, and rear axles are Isuzu RT series.
- Isuzu Giga Series chassis are designed to be durable and easy to fit any body type.
- Wheelbase options on Isuzu Giga Series from 4,300mm – 5,980mm allow you to choose the most appropriate body to suit your application.
- Isuzu Giga cabs come in standard and high roof configuration.
- Isuzu Giga Series trucks offer you Gross Vehicle Mass (GVM) options from 24,000kg all the way up to 29,000kg and Gross Combination Mass (GCM) up to 62,000kg.

Isuzu Giga Series trucks are the most durable and versatile heavy truck on the NZ market today and offer you many options so that the vehicle you choose will last the distance and suit your requirements.

WARRANTY AND AFTERSALES

Isuzu Giga Series trucks are designed to be the most durable and reliable heavy trucks in NZ. However, as with everything mechanical, Isuzu trucks will at some time require servicing, repairs and parts. Isuzu in association with Holden New Zealand offers a superior parts facility to ensure your Isuzu stays on the road as much as possible. Isuzu New Zealand also offer an excellent warranty on all Giga Series to give you peace of mind and reduce your exposure to unexpected costs.

- All Isuzu Giga Series receive a 36 month or 250,000km vehicle warranty.
- Isuzu parts are distributed across NZ by our logistics provider. There are over 16,000 lines with 35,000 part numbers worth approx \$3.5m at Isuzu's parts warehouse. These parts can be delivered to all Truck Dealers as standard delivery, or if VOR (Vehicle Off the Road) Isuzu parts can express ship them.
- Isuzu New Zealand has a Service Training Centre in Auckland which is used year round to continually improve the knowledge and skill base of Isuzu truck technicians.
- Each year two Isuzu technicians qualify to go to Japan to compete in a global competition to find the best team of Isuzu technicians in the world.

THE NUTS & BOLTS
